**GBT Observing Backup Schedule for December 2004**

**Overview:**
- The schedule outlines observing backup times for December 2004.
- Days are listed vertically on the left, with times listed horizontally.
- Observations are marked with specific times and days.

**Key Observations:**
- Specific observation times are marked with a series of 'S' symbols.
- Software tests are indicated with 'Sw Test' notation.
- Other notes include maintenance and special events.

**Example Entries:**
- **Sun, Dec 13:** Software tests
- **Mon, Dec 14:** Observations note dates and times.
- **Sat, Dec 19:** Observations note dates and times.

**Additional Information:**
- Dates are listed from top to bottom, with days proceeding left to right.
- Times range from 05h to 23h, with EST and LST denoted.
