

GBT Observing for February 2005

Legend

The time is local eastern time. The dates are eastern time zone dates and the number on the far right is the local sidereal date at the start of the day. The dark vertically slanted line marks midnight local sidereal time and the light vertically slanted lines mark 6,12, and 18 hours local sidereal time.

The ~ mark indicates that the telescope has not yet been scheduled. The Se or Setup code refers to system preparation for start of Astronomical observing. PCO refers to Program CheckOuts which are feasibility tests of approved proposals. RCO refers to receiver checkouts.

GBT proposal codes on the graphics schedule have been shortened to their minimum unique length. For example a code of 1A7 is GBT01A-007 while 2B45 would be GBT02B-045. The first number in the shortened code is the year after 2000, the letter represents the trimester (A, B or C) and the last number is a number between 1 and 999. Proposal codes followed by * and one of 3,5,6,8,A indicates if a prime focus receiver is to be used and the particular one to be used.

02/01/2005

The eastern time at midnight local sidereal time on the first of the month is 15h39m.

Codes

Notes

Af - 4C50*A Lane et al
Aj - +5A15 Kondratko et al ..
Ah - 4C12*8 Donovan and Camilo
Ae - +3B18 Shirley et al
No - +Notscheduled
Tg - +S&X tests - Maddalena
Th - +GFM tests - Prestage
Tf - RCO*8 800 MHz
Tb - Tests S2+M5 - Ghigo
Tc - M&C Tests
Ta - M&C Reg Tests - Braatz
Td - RCO*8 450 MHz
