

# GBT Observing for September 2005

## Legend

The time is local eastern time. The dates are eastern time zone dates and the number on the far right is the local sidereal date at the start of the day. The dark vertically slanted line marks midnight local sidereal time and the light vertically slanted lines mark 6,12, and 18 hours local sidereal time.

The ~ mark indicates that the telescope has not yet been scheduled. The Se or Setup code refers to system preparation for start of Astronomical observing. PCO refers to Program CheckOuts which are feasibility tests of approved proposals. RCO refers to receiver checkouts.

GBT proposal codes on the graphics schedule have been shortened to their minimum unique length. For example a code of 1A7 is GBT01A-007 while 2B45 would be GBT02B-045. The first number in the shortened code is the year after 2000, the letter represents the trimester (A, B or C) and the last number is a number between 1 and 999. Proposal codes followed by \* and one of 3,5,6,8,A indicates if a prime focus receiver is to be used and the particular one to be used.

09/23/2005

The eastern time at midnight local sidereal time on the first of the month is 02h38m.

<b>Codes</b>	<b>Notes</b>
--------------	--------------

Aa - 4C43*3 Ransom et al	
Ab - BB203 Barvainis et al	
Ad - 5A48*8 Camilo et al	
Af - 5C23*8 Camilo et al	
Cc - HF Comm - Balser	
Mb - Install 800 MHz	
Td - RCO 340 MHz	
Tc - Astrid Tests - Clark	
Tf - Test K band - Braatz	
Tg - RCO 5C16 - Ghigo	
Th - Astrid tests - Ghigo	
Ta - RCO*8 800MHz	
Tb - VLBA Ph Cal - Ghigo	
Ti - Q band tests - Norrod
