

GBT Observing for October 2007

Legend

The time is local eastern time. The dates are eastern time zone dates and the number on the far right is the local sidereal date at the start of the day. The dark vertically slanted line marks midnight local sidereal time and the light vertically slanted lines mark 6,12, and 18 hours local sidereal time.

The ~ mark indicates that the telescope has not yet been scheduled. The Se or Setup code refers to system preparation for start of Astronomical observing. PCO refers to Program CheckOuts which are feasibility tests of approved proposals. RCO refers to receiver checkouts. Holidays are indicated by non white background for sid day #.

GBT proposal codes on the graphics schedule have been shortened to their minimum unique length. For example a code of 1A7 is GBT01A-007 while 2B45 would be GBT02B-045. The first number in the shortened code is the year after 2000, the letter represents the trimester (A, B or C) and the last number is a number between 1 and 999. Proposal codes followed by * and one of 3,5,6,8,A indicates if a prime focus receiver is to be used and the particular one to be used.

11/13/2007

The eastern time at midnight local sidereal time on the first of the month is 00h41m.

Codes

Notes

Ab - 7B6 Camilo et al
Ae - 7A89*8 Camilo et al
Ad - 7C33*8 Hessels et al
Aa - 7C44*8 McLaughlin et al
Ac - 7C20 Camilo et al
Al - 7C71 Hales and Casassus
Aj - 5A29 Vanden Bout et al
Ah - 7B36 Mangum et al
Ag - 7C82 Aguirre et al
Ak - 7C33*8 Hessels et al
Cb - Ka Comm - Maddalena
Cc - Zpect Comm - Baker/Harris
Cd - C band Comm - Balser
Tb - Zpec tests
Td - PCO 7C29
Ta - Servo tests
Tf - Servo tests - Hunter
Tg - X band tests - Minter
Th - RCO C band - Minter
Ti - Ka band tests - Pisano
