

GBT Observing for August 2002

Legend

The time is local sidereal time. The dates are eastern time zone dates and the number on the far right is the local sidereal date. The dark vertically slanted line marks midnight eastern time and the light vertically slanted line marks 8am eastern time.

The ~ mark indicates that the telescope has not yet been scheduled. The SU or Setup code refers to system preparation for start of Astronomical observing.

GBT proposal codes on the graphics schedule have been shortened to their minimum unique length. For example a code of 1A7 is GBT01A-007 while 2B45 would be GBT02B-045. The first number in the shortened code is the year after 2000, the letter represents the trimester (A, B or C) and the last number is a number between 1 and 999. Proposal codes followed by * and one of 3,5,6,8,A indicates if a prime focus receiver is to be used and the particular one to be used.

08/02/2002

The sidereal time at midnight on the first is 19h23m.

Codes

Notes

Cd - HI Galaxy Survey
Cc - OH IR Galaxy survey
Ca - Vortex out for service
Cg - HI Galaxy Survey
Cb - OH Survey of IR Galaxies - Braatz
Ce - Pulsar drift scan survey - Stairs
Ci - Pulsar drift scan survey - Stairs
Td - Tests for VLBI observing - Ghigo
Tf - Tests of GBT02A-008 Maddalena
Tg - Tests of GBT01A-058/061 - Langston/Kanekar
Ta - Tests of baselines - Balser/Fisher
Tb - Tests QD characterization - Balser
Tc - Tests of GBT02A-041 - Balser
