

From Project Ozma to the Starship Enterprise: A Conversation About the Next 50 Years of SETI

Participants -- September 9, 2010

Prof. Tom M. Bania -- Boston University, has taught "Cosmic Evolution: The Search for Extraterrestrial Life" since 1990;

Author: *Life Beyond Earth: A Consideration of Extraterrestrial Civilizations* (with Rood & Trefil)

Dr. Alan Boss -- Astronomer, Carnegie Institution for Science

Author: *The Crowded Universe: The Search for Living Planets*

Dr. Eric Chaisson -- Director, Wright Center for Science Education, Tufts University

Author: *Cosmic Evolution: The Rise of Complexity in Nature*

Dr. Br. Guy Consolmagno -- Astronomer, The Vatican Observatory

Author: *Intelligent Life in the Universe? Catholic belief and the search for extraterrestrial intelligent life*

Dr. Mike Davis -- Astronomer, Director of SETI Projects, the SETI Institute

Dr. Kathryn Denning -- Anthropology and Science & Technology Studies, York University; member SETI Permanent Study Group of the International Academy of Astronautics

Author: *Is Life What We Make of It?: Social Evolution in Cosmos and Culture*

Dr. Steven Dick -- Chief Historian, NASA (retired)

Author: *Cosmos & Culture; The Biological Universe; The Living Universe*

Dr. Frank Drake -- Director, Center for the Study of Life in the Universe, SETI Institute

Author: *Is Anyone Out There* (with Dava Sobel)

Dr. Dale Frail -- Astronomer, NRAO Socorro NM

Ms. Sue Ann Heatherly -- Education Officer, NRAO Green Bank

Mr. Bill Higgins -- Radiation Physicist, Fermilab

Dr. Paul Horowitz -- Professor of Physics and Electrical Engineering, Harvard University

Author: *The Art of Electronics*

Dr. Chris Impey -- University Distinguished Professor, University of Arizona

Author: *The Living Cosmos*

Dr. Kenneth Kellermann -- Senior Scientist, NRAO Charlottesville VA

Editor: *The Search for Extraterrestrial Intelligence; Serendipitous Discoveries in Radio Astronomy*

Dr. Brian Kent -- Astronomer, NRAO Charlottesville VA

Dr. Violette Impellizzeri -- Astronomer, NRAO Charlottesville VA

Dr. Marc Kuchner -- Astronomer, NASA Goddard Space Flight Center

Dr. Geoffrey Landis -- NASA Glenn Research Center
Author: *Mars Crossing*

Dr. Glen I. Langston -- Astronomer, NRAO Green Bank

Dr. Joseph Lazio -- Jet Propulsion Laboratory, Pasadena CA.
Author: *The Cradle of Life*

Dr. Felix J. Lockman -- Green Bank Telescope Principal Scientist, NRAO Green Bank
Editor: *But it Was Fun: The First Forty Years of Radio Astronomy at Green Bank*

Mr. Jon Lomberg -- Artist: COSMOS series and CONTACT movie; Gemini Observatory; NASM "Portrait of Milky Way"; Galaxy Garden; 5 art/messages riding aboard Voyager, Phoenix, and MER spacecraft

Mr. Joe Masters -- Software Engineer, NRAO Charlottesville, VA

Dr. Lucas Mix -- Episcopal priest, evolutionary biologist, Chaplain Univ. Arizona
Author: *Life in Space: Astrobiology for Everyone*

Ms. Teresa Nielsen-Hayden -- Editor, Tor Books
Author: *Making Book*

Dr. Karen O'Neil -- Astronomer, NRAO, Green Bank Site Director

Mr. Tom Pierson -- CEO, SETI Institute

Dr. Rob Reid -- Astronomer, NRAO Charlottesville VA

Prof. Robert Rood -- University of Virginia, has taught "Life Beyond the Earth" since 1978
Author: *Are We Alone? (with J. Trefil)*

Dr. Christopher Rose -- Dept. of Electrical and Computer Engineering, Rutgers Univ.
Author: *Inscribed matter as an energy-efficient means of communication with an extraterrestrial civilization*

Dr. Lynn J. Rothschild -- Astrobiologist, Evolutionary biologist, NASA Ames
Author: *Evolution on Planet Earth: The Impact of the Physical Environment*

Dr. Leslie Sage -- Astronomy Editor, NATURE

Dr. Seth Shostak -- Senior Astronomer, SETI Institute
Author: *Confessions of an Alien Hunter; Sharing the Universe*

Mr. Andrew Siemion -- graduate student, University of California, Berkeley

Ms. Dava Sobel -- writer
Author: *Is Anyone Out There (with Frank Drake); Longitude; Galileo's Daughter; The Planets*

Mr. Rick Steelhammer -- Reporter and Columnist, Charleston WV Gazette

Dr. Woodruff T. Sullivan, III -- Astronomer, Univ. of Washington; Co-founder: "SETI at Home"
Author: *Cosmic Noise: A History of Early Radio Astronomy*

Dr. Jill Tarter -- Director, Center for SETI REsearch, SETI Institute
Author: *The Search for Extraterrestrial Intelligence (SETI)*

Hon. David S. Tatel -- Judge, U.S. Court of Appeals for the District of Columbia

Dr. Wesley Traub -- Chief Scientist, Exoplanet Exploration Program, NASA
Author: *Detectability of Earth-Like Planets in Multi-Planet Systems*

Dr. Mary A. Turzillo -- poet and writer
Author: *Mars is No Place for Children; An Old-Fashioned Martian Girl*

Dr. Robert C. Vaughan, III -- President, Virginia Foundation for the Humanities
Author:

Mr. Paul Wagner -- Filmmaker : *The Stone Carvers* (Academy Award, Emmy Award);
A Paralyzing Fear, the Story of Polio in America (Emmy Award)

Mr. Daniel Wagner -- student

Dr. W. Jack Welch -- Prof. of Electrical Engineering & Astronomy, Univ. of California, Berkeley

Dr. Dan Wertheimer -- University of California, Berkeley. Director, Berkeley SETI Program.
Chief Scientist: "SETI at Home"

Dr. Susanna Widicus Weaver -- Asst. Professor of Chemistry, Emory University
Author: *Rotational Spectroscopy and Observational Astronomy of Prebiotic Molecules*

Dr. Jennifer Wiseman -- Chief, Exoplanets and Stellar Astrophysics Laboratory, NASA GSFC;
Senior Project Scientist, Hubble Space Telescope; Director, AAAS Dialogue on Science,
Ethics and Religion

Mr. Richard Wortman -- Film Producer, Cheri Sundae Productions
