

Upper Back Mountain

35.8.6 miles, 2766 ft of climbing

Difficulty: Very Difficult

3 Miles

Suggested Ride - On Your Own or Sunday
Sign out/in at the Science Center

Ride south along 92S, turn right onto 66 toward Cass. In Cass, cross the bridge and go around the Country Store, then turn right onto Route 1. Follow this back road full of small hills and turn right onto 92S into Durbin. At the south end of Durbin past the railroad station, turn right to enjoy a safer back road that parallels the highway and joins 92S again. Be careful riding 92S back, and enjoy the light blue safer alternate routes as desired back to Green Bank.

Keep in mind that you will NOT have cell phone coverage at any point on these rides. If you need supplies or a break, visit one of the labeled locations.

If you need assistance, call the NRAO Science Center front desk at **304-456-2150**, and/or the Telescope Operator at **304-456-2341**.
